KEY PERSPECTIVES ON THE REGION'S HVACR INDUSTRY

5th ANNIVERSARY CELEBRATION

EUROVENT MIDDLE EAST INDUSTRY SUMMIT

HVACR NEXT GENERATION RETHINKING POLICIES AND STRATEGIES

13-14 SEPTEMBER 2022
LE MERIDIEN DUBAI
HOTEL & CONFERENCE CENTRE
(GREAT BALLROOM)

Eurovent Middle East and its members invite government representatives and high-level industry stakeholders to join our 5-year anniversary celebration, which shall highlight some of the most important issues our industry is confronted with, and how the public and private sectors can jointly address them.

As one of the most influential organisations in this field, Eurovent Middle East has always supported an open and transparent exchange and is happy to welcome all interested parties to discuss ways how to best shape future policies for energy efficiency, sustainability and healthy environment with peers and colleagues from around the Middle East region.

Tariq Al Ghussein
President
Eurovent Middle East

EVENT OUTLINE

Established in January 2017, Eurovent Middle East will celebrate its fifth anniversary in 2022. To commemorate the occasion, Eurovent Middle East invites stakeholders from the GCC, especially governmental entities, associations, and industry representatives to a 2-day industry event, facilitating the exchange between industry and regulatory bodies, and discussing policies and strategies towards a more sustainable future in cooling, ventilation, and refrigeration for the region.

DISCLAIMER

As a not-for-profit organisation, Eurovent Middle East takes no commercial interest in the organisation of the event. All contributions are based on their relevance only. Due to COVID-19 safety measures, attendance will be limited to industry professionals on executive levels and representatives from governmental institutions.

KEY TOPICS

- **Energy Efficiency in the Middle East:** From products to services
- **Refrigerants:** Recommendations for transition to low GWP
- **IAQ post-pandemic:** International policies and strategies
- **HVACR2030:** Technical trends based on registered patents
