

REDUCING THE ENERGY BILL

28 JANUARY 2019

/18:00-21:00/

Dubai, UAE

**HIGH-QUALITY EXPERT SEMINAR
FOR ENGINEERING AND MEP
CONSULTANTS, INVESTORS
AND PLANNERS IN THE UAE**

For more information and registration, visit www.eurovent.me

SPECIAL GUEST:
Mr John Austin Davies
 (Marketing Project Manager,
 EPTA S.p.A., Italy)

28 JANUARY 2019
/18:00-21:00/

**LE MERIDIEN DUBAI HOTEL
 & CONFERENCE CENTRE
 AL GARHOUD, DUBAI, UAE
 MEETING ROOM: FALCON
 BALL ROOM**

REGISTRATION

Register free-of-charge at
www.eurovent.me

IMPORTANT NOTE
PARTICIPATION LIMITED
TO 100 PERSONS. TICKETS
WILL BE ISSUED ON A
FIRST-COME FIRST-SERVE
BASIS.

Register now and become part of the 'HVACR Leadership Workshop: 'Reducing the Energy Bill'. Join us at **Le Meridien Dubai Hotel & Conference Centre on 28 January 2019 from 18:00h** and meet colleagues and industry leaders for an informative evening with plenty of networking opportunities.

'HVACR Leadership Workshops' is a seminar series by Eurovent Middle East, tailor-made for engineering and MEP consultants, investors and planners in the UAE, with the core aim of informing them about standards and industry recommendations in the field of ventilation, air conditioning, and refrigeration. The non-commercial, free-of-charge seminars are spread across multiple workshops.

In this 'HVACR Leadership Workshop' by Eurovent Middle East, leading industry experts will elaborate on key technologies and strategies to reduce energy consumption in the food cold chain. In a region such as the GCC where most fresh food items are imported, it is of vital importance to ensure that the food cold chain remains uncompromised in a sustainable, cost-effective manner to the benefit of both stakeholders and consumers.

We are particularly honoured to welcome Mr John Austin-Davies (EPTA S.p.A., Italy) as a Special Guest. As a distinguished expert in the refrigeration sector and having received many accolades for his dedication to topics such as natural refrigerants and carbon reduction, Mr Austin-Davies is going to elaborate on energy efficient refrigeration technologies.

Seminar topics further include:

- Food Retail Stores: A Focus on Energy Efficient Refrigeration
- How Air Curtains can be used to reduce thermal energy losses in the retail sector
- Energy Savings through the Enterprise Management Platform
- Doing More with Less: Smart Stores and Energy Efficiency
- Case Studies on Air Conditioning and Refrigeration for Retrofits in the Retail Sector

The individual topics will be followed by a feedback session and discussion, where participants are invited to discuss any issues related to energy savings within the retail sector. This includes, for instance:

- CO₂ and Ammonia as alternative refrigerants
- Frequently faced challenges and solutions in the food cold chain
- Current trends in food cold chain technologies and innovations moving forward

AGENDA (TENTATIVE)

TIME	TOPIC	SPEAKER/PRESENTER
18:30-18:50h	Special Guest Food Retail Stores - A focus on Energy Efficient Refrigeration	Mr John Austin-Davies Marketing Project Manager EPTA S.p.A. (Italy)
18:50-19:10h	How Air Curtains can be used to reduce thermal energy losses in the retail sector	Mr Jan Svallingson Director Business Development Frico (Sweden)
19:10-19:30h	Doing More with Less: Smart Stores and Energy Efficiency	Mr Alexander Abrass Senior Sales Manager Danfoss
19:30-19:50h	Energy Savings through the Enterprise Management Platform	Mr Krishna Sankaran Director, Energy Solutions GCC Johnson Controls
19:50-20:10h	Case Studies on Air Conditioning and Refrigeration Retrofits in the Retail Sector	Mr Marco Duarte / Mr John Fernandez ebm-Papst
20:10-21:00h	Moderated discussion	Mr Markus Lattner Director Eurovent Middle East

ORGANISER

Eurovent Middle East is the Association of the region's leading HVACR manufacturers.

Based in the UAE, the Eurovent Middle East Association represents the region's leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, Industrial Ventilation, and Building Automation Technologies, as well as sector associations and industry initiatives active in these fields. By thinking 'Beyond HVACR', contributing manufacturers fulfil highest requirements in terms of product quality and sustainability.

Our members are united in their aim to work towards a lower energy demand, an improved food safety, and a better indoor air quality in the Middle East. Together, they employ thousands of people locally, supporting a more diversified economy throughout countries in the region.
